

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. ### INTRODUCTORY.

It is a source of much gratification to the Department to note the increased demand for copies of the Report, and the letters received from various sources out of the State indicate that the copies sent are being used to good advantage, which leads to the conclusion that the publication is fulfilling the mission intended by the Legislature providing for its issue.

We quote below from the Twenty-fourth Annual Report:

"The conditions which made necessary the introductory note in our last report have not materially changed, and, due to the fact that the circulation of the volume is constantly widening, it has been deemed necessary to repeat a part of the matter used under this head last year, and to add some other equally as important.

"Primarily, the purpose of the statistics is to show hours of labor, wages, condition of laborers, status of the industries of the State, and, by thus showing actual conditions, suggest, if possible, needed legislation for the protection of both laborer and employer, to the end that neither class shall profit at the expense of the other, and that no undue advantage shall be taken of either party.

"In some quarters to which the report is sent, these purposes are overlooked, the recipients expecting rather a directory of manufacturing enterprises. Under the peculiar conditions of the law governing the Department and the manner of collection of statistics, it has proved impossible to secure a complete list of the factories. The only possible way to secure the miscellaneous factories would be by a detailed census campaign, and while this would no doubt be of service to those parties looking for a directory, it is hardly probable that it would materially change the conclusions reached. However, in so far as the means at hand have allowed, it has been the purpose to include every factory, of whatever kind, employing five or more people, that it was possible to reach."

Some factories have been established or have gone out of business during the interval between the time of investigation and of issuing the report, and some factories have failed to answer the inquiries sent out from this office. In the appendix will be found a list of all factories on our list, including both those that have and have not reported, alphabetized and classified.

In the appendix will also be found the so-called labor laws. The interpretations of these laws are only found in the Supreme Court Reports, and it is manifestly impracticable to give these.

## CHAPTER II.

### FARMS AND FARM LABOR.

#### SUMMARY.

From a general survey of the farming industry the conditions would indicate that farmers are devoting much more forethought to their work than ever before. Seed selection, improved methods of cultivation and fertilization are coming into their proper share of study and investigation, with the result that the amount of crops from a given area are larger than formerly. Along the same line, though not to quite the same extent, attention is being paid to the improvement of animals and stock for the farm. While it may be said that farm stock has improved as much as methods of cultivation, it is believed that the improvements in stock and animals has been made with a view of improvement alone, rather than from a study of needs and appropriateness. It would seem, from observation of this phase, that there is yet doubt about what particular breed of animal is best suited to the needs of the farmers in North Carolina. This applies especially to horses, cattle, and hogs. Sheep and goats are not raised extensively, though some attention is being paid the former. Poultry raising is, in nearly all cases, a side line, so to speak, though there would seem to be excellent opportunity for the development of this industry on a commercial scale. The improved breeds of poultry are mostly in the hands of fanciers, who breed for show purposes, and at such cost as to make their sale at market prices not profitable. The principal proportion of poultry finding its way to the markets is of the nondescript variety, and even of this there is scarcely enough to supply the demand. This condition holds, it appears, throughout the year. Figures compiled from answers to questions by farmers throughout the State are as follows:

Table No. 1 shows an increase in the value of land in ninety-eight counties, and no change in two. Fertility of land is reported maintained in ninety-seven counties; three report that it is not maintained. Eight counties report a tendency to have larger farms; ninety-one smaller; one no change. Ninety-one counties report labor scarce; nine plentiful. Ninety-four counties report negro labor unreliable; four reliable, and two no negro labor. Fifty-seven counties report employment regular; forty-two irregular; one no answer. Ninety-three counties report an increase in cost of living; seven no increase.

In Table No. 2 ninety-four counties report that there is change towards diversification of crops; six no change. Ninety-seven counties report improvement in method of cultivation of crops; two no improvement, and one does not answer.

Highest average wages paid men, \$25.56, an increase of 45 cents per month over last year; lowest, \$15.81, an increase of 53 cents per month over last year. Highest average wages paid women, \$15.66, an increase of 13 cents per month over last year; lowest, \$10.25, an increase of 14 cents per month over last year. Average wages of children, \$9.29, an increase of 53 cents per month over last year. Twenty-six counties report financial condition of working people good, sixty-four fair, nine poor, and one does not answer question. Ninety-one counties report improvement; eight no improvement, and one does not answer.

Table No. 3 shows that sixty-nine counties produce cotton at \$33.07 per bale of 500 pounds; thirty-one do not report. Eighty-five counties produce wheat at a cost of sixty-nine cents per bushel; fifteen counties do not produce wheat. Ninety-nine counties produce corn at a cost of forty-eight cents per bushel, and one county does not report. Ninety-six counties produce oats at thirty-five cents per bushel, four counties do not report oats. Fifty-four counties produce tobacco at \$7.63 per 100 pounds; forty-six counties do not report tobacco. Twenty-eight counties report increase in wages, and seventy-two counties report no change.

Table No. 4 shows road, educational, religious and moral conditions. Ninety-four counties favor road improvement by taxation; six counties do not favor such road improvement.

## CHAPTER III.

### TRADES.

The act creating the Department contemplated only the collection of information upon the subject of labor, its relation to capital, the hours of labor, the earnings of laboring men and women, their educational, moral, and financial conditions, and the best means of promoting their mental, material, social, and moral prosperity. But a slight departure from the general condition affecting wage-earners, in a broad sense of the term, is shown in the compilation of information obtained from the correspondents who are engaged in the various "trades" themselves.

But for the continually increasing cost of living, it might be said that the condition of the persons employed in what are known as the trades shows a very satisfactory state of affairs. The cotton-mill industry is perhaps the only one where there is lack of normal employment. During the last year the depression in the markets for this class of goods has been so acute that numbers of mills have run on short time, while still others have been closed down for periods of more or less duration.

In the building trades there has been a noticeable improvement over last year, and the demand for various manufactured articles entering into the construction of buildings has been stimulated to such an extent as to benefit other lines.

The class commonly known as day laborers have also been supplied almost continuously with employment. Many of these are employed in excavating, handling and hauling of material, and the numberless unclassified duties of helpers to the skilled laborers. Street and steam railway construction, hydro-electric development, to say nothing of the endless opportunity for farm employment, have opened the way for almost all able-bodied men, of whatever degree of capability, for steady employment.

The cities and towns are still overrun with vagrants, mostly negroes. For some reason that we are unable to locate, too little is being done to reduce the evils of this condition.

#### SUMMARY.

The average wages of the different trades reported are as follows: Blacksmith, \$2.35; brickmason, \$3.41; boilermaker, \$3.20; cabinet-

maker, \$2.50; carpenter, \$2.37; conductor, \$3.60; contractor, \$2.17; coppersmith, \$3.50; engineer, \$5.17; fireman, \$1.90; letter carrier, \$2.93; linotype operator, \$3.56; liveryman, \$1; machinist, \$2.92; moulder, \$2.67; painter, \$3; patternmaker, \$4; plasterer, \$3.83; pressman, \$2; printer, \$3.13; railway conductor, \$4.55; stonemason, \$3; street railway employee, \$2; surveyor, \$3.50; textile workers, \$1.55; tinner, \$2; trainmaster, \$4.

## CHAPTER IV.

---

### MISCELLANEOUS FACTORIES.

In the division of establishments treated under this head (which includes all manufacturing establishments reporting that are not treated under cotton, woolen, silk or knitting mills, or furniture factories), a growth consistent with that of former years is shown. It is gratifying to note the variety of articles manufactured in the State; but an examination of the class of factories cannot but bring to mind many articles not manufactured, that are imported and used largely, that the State offers special opportunity for producing. Especially is this noticeable in the line of canned and preserved food-stuffs. No doubt, much of the fresh fruit and vegetables shipped are returned in the preserved conditions, thereby losing to the original producer one or more profits, plus the freight to and from the points where the products are handled.

Wages show a substantial average increase; the per cent of persons who read and write also shows an increase over last year. The total number of persons employed is slightly larger than was shown by last report. Altogether, the showing made is encouraging, and, while not as great as could be hoped for, shows that the general trend is toward development, a development so consistent and so steady as to dissipate any idea that there is any uncertainty about its permanence.

The total number of miscellaneous factories reporting to the Department for the year ending June 30, 1911, is 681.

Aggregate capital reported by 557 factories, \$51,787,491. Five hundred and ninety-eight factories report the estimated value of plants to be \$22,858,324, and the output \$53,152,581.

Six hundred and sixty-seven factories report power used as follows: Steam, 394; electric, 146; water, 26; hand, 16; gasoline, 24;

steam and electric, 29; steam and gasoline, 3; steam and water, 1; steam and gas, 2; gas, 3; steam, water, and electric, 1; water and gasoline, 1; 21 do not report power. These establishments, exclusive of 16 using hand power, show the employment of 102,619 $\frac{1}{8}$  horsepower. The average hours worked per day, ten hours and twenty-one minutes.

Forty-two per cent report increase of wages; fifty per cent report no change; one per cent report decrease; seven per cent do not report. Sixty-nine and one-tenth per cent pay wages weekly; seventeen and four-tenths per cent pay semimonthly; ten and three-tenths per cent pay monthly; two-tenths of one per cent pay daily; two-tenths of one per cent on demand; two-tenths of one per cent trimonthly; two-tenths of one per cent by the piece; two and four-tenths per cent do not report.

Six hundred and forty-seven factories report 34,260 persons employed. This number is made up of 28,520 males, 4,356 females, 1,484 children. Highest average wages per day: males, \$2.61; females, \$1.45. Lowest average wages: males, \$1.01; females, 91 cents. Eighty-six per cent of adult employees read and write; ninety-one per cent of children. Forty-seven and five-tenths per cent report improvement in financial condition of employees; twenty-nine and two-tenths per cent report no improvement; twenty-three and three-tenths per cent do not answer.

Forty-five and nine-tenths per cent report improvement in general proficiency of employees; twenty-seven and three-tenths per cent no improvement; twenty-six and eight-tenths per cent do not report. Fifty-three per cent report labor plentiful; sixteen per cent not plentiful; thirty-one per cent do not report.

Seventy-five and nine-tenths per cent of the establishments do not employ union labor; nine and six-tenths per cent employ both union and non-union labor; fourteen and five-tenths per cent do not answer question.

In the appendix we have made a list of the factories, classified and alphabetized, which it is hoped will be of benefit to parties who are looking for a specific article or a certain factory. In no sense is this list offered as a directory; the purpose is not to offer a directory, but a résumé of conditions of the laborers and of the trades. If there is information of a general character desired, and parties desiring same will address this office, pleasure will be taken in the furnishing of anything that may be properly classified under the heads that this Department may be supposed to cover. Inquiries are invited on questions which may fairly be assumed to be in our line.

In the following tables will be found the detailed information from which these conclusions have been drawn.

## CHAPTER V.

---

### COTTON, WOOLEN AND SILK MILLS.

The cotton mills have, for the past two and a half years, been suffering from a depression of more or less intensity. Short periods of relief have been experienced, but the durations of these periods have been so short as to almost contradict any statement that they had relieved. The cotton mill industry is, perhaps, more sensitive to depression than any of the other class of manufactories, and, at the same time, a depression in the business has a more widespread and immediate effect. The cause for this latter result can readily be seen when consideration is given to the number of persons employed, compared to the number in other industries of the State. The shutting down of any one mill throws a greater or less number of persons out of employment; and, as a rule, these persons constitute by far the larger division of the population. This, of course, does not hold where cotton mills are situated in cities. Naturally, the pay of this large proportion of the population being cut off, affects the merchants; removes an outlet for the sale of farm products, truck and the like. This strikes at the very base of industrial activity, and is, therefore, acute in its effects, from its very beginning.

The tables following furnish the basis for these deductions:

The number of cotton, woolen and silk mills reporting is 306. Of this number, two hundred and ninety show an authorized capital of \$52,792,750. The number of spindles reported is 3,332,811; looms, 56,997; braidiers, 550; cards, 7,457; employing 136,652 horsepower. The approximate amount of raw material used, 299,202,781 pounds. The total number of employees reported is 54,057. Of these, 30,535 are males; 21,921 are females; eight mills, employing 1,601, do not classify employees. The estimated number of persons dependent on these mills and on the 54,057 employees for a livelihood is 153,647.

Seventy-five per cent of the mills report that there is an improvement in general proficiency of operatives; ten and five-tenths per cent report no improvement; fourteen and five-tenths per cent do not answer. Sixty-seven and one-tenth per cent report improvement in

financial condition of employees; twenty-one and seven-tenths per cent report no improvement; eleven and two-tenths per cent do not answer. Eighty-two and four-tenths per cent report improvement in educational lines; seven and one-tenth per cent no improvement; ten and five-tenths per cent do not answer. Ninety-five and five-tenths per cent of answers indicate that labor laws are complied with; seven-tenths of one per cent that they are not; three and eight-tenths per cent do not answer. Per cent of operatives who read and write is given as eighty-five and one-tenth.

The high average wages for males is \$2.60; low average, 63 cents. The high average for females is \$1.35; low average, 56 cents.

One hundred and fifty-four mills pay wages weekly; 121 pay twice a month; 13 pay monthly; 1 pays trimonthly; 4 mills do not give this information.

The average number of hours constituting a day's work is ten hours and forty-five minutes. The average hours for the mills doing night work is ten hours and thirty minutes.

One hundred and eight of the two hundred and ninety-five mills reporting power use steam as motive power; eighty use electricity; forty-two, steam and water; twenty-nine, water; twenty-six, steam and electric; three, steam, water, and electric; four, water and electric; three do not report.

#### KNITTING MILLS.

Sixty-five knitting mills are reported for 1911, and 54 show a capital stock of \$3,043,125. The number of spindles in use in these mills is given as 48,892; knitting machines, 7,762; sewing machines, 583; making use of 4,735 horse-power. Seven do not report horse-power.

Thirty-two mills use steam for power; thirteen use electricity; nine, gasoline; four, electric and steam; three, water; one, electric and gas; three do not give power used.

Number of employees reported is 6,475: 2,302 males and 3,590 females; three mills, employing 583, do not classify employees. 15,766 persons are dependent on the operation of these mills for a livelihood.

Wages are as follows: High average, males, \$2.29; low average, males, 62 cents; high average, females, \$1.44; low average, females, 51 cents.

Employees of twenty-two mills are paid weekly; twenty-nine mills semimonthly; three monthly; two mills do not answer. The average number of hours worked per day, ten hours and thirteen minutes.

Twenty-nine mills report no change in wages; twenty-three report wages increased; one mill reports decrease; five mills do not answer the question. Forty-two mills report financial condition of employees improved; nine report that it is not improved; five do not answer.

General proficiency is reported improved from forty-three mills; five that it has not improved; eight do not report.

## CHAPTER X.

### MINES.

North Carolina is a State rich in minerals, producing gold, silver, copper, iron, tin, several of the abrasive materials, mica, quartz, barytes, monazite, zircon, talc and pyrophyllite, graphite, coal, peat, granite, sandstone, marble, limestone, kaolin or china clay, pottery clay, fire clay, pipe clay, and various forms of clay usable and desirable for bricks for different purposes. In addition to the products above named, numerous varieties of precious stones have been found, usually in small quantities.

The industry, as a whole, does not seem, at the present time, to show the activity prevailing some four or five years ago. It is difficult to account for this condition, that is, for the general condition. In some instances, noticeably concerning mica, the mine-owners report that the price will not justify operation. Lack of adequate transportation facilities in some cases is given as a reason for lethargy.

This Department sent out blanks to some four hundred different addresses listed as mines; less than fifty replies were received, and of these, quite a good many reported that they were now idle.

Without thorough canvass it is absolutely impossible to arrive at even an estimate of the number of persons engaged in the work. The same statement applies to the wages paid.

During the year only one fatal accident was reported to this Department. This occurred at the mine of the Cranberry Furnace Company, Cranberry, in Avery County, on June 17, 1911. The victim of the accident was L. C. Tolley. The accident occurred through an attempt to take advantage of an old hole for blasting purposes. The Commissioner made a personal investigation of this accident, and found no cause for Departmental or State procedure against the mine operators.

The North Carolina Geological and Economic Survey has recently issued a bulletin\* which gave an account of the production of the various minerals for the years 1908, 1909, and 1910. These figures,

except for gold, silver, and copper, were gathered in conjunction with the United States Government investigators, while the figures for the three minerals named were gathered by the North Carolina Survey, and represent the only figures available covering this point.

Also the North Carolina Geological and Economic Survey has issued a bulletin on the "History of the Gems Found in North Carolina," which throws some interesting sidelights on the subject.

It is hoped that the Department will be able to devote more time to this question during the coming year, to the end that a more comprehensive account may be furnished in the next annual report.

## APPENDIX.

---

It is the purpose, in this division of this report, to furnish such information, relative to the general subjects treated in former chapters, as seems to be desirable, which are yet of such diverse nature as to be impracticable of handling under those heads. As correspondence and requests for information show necessity, it is intended to add to the volume and variety of this information from year to year, not in extended but contracted form, retaining always the salient portions of facts covered. The Department desires to emphasize its readiness to furnish any information and answer any inquiries that are covered by the answers to questions sent out, that may not be quite clear in the tables.

## LABOR LAWS OF NORTH CAROLINA.

### WAGES AS PREFERRED CLAIMS—IN ADMINISTRATION.

SECTION 87. The debts of the decedent must be paid in the following order:

*First class.*—Debts which by law have a specific lien on property to an amount not exceeding the value of such property.

*Second class.*—Funeral expenses.

*Third class.*—Taxes assessed on the estate of the deceased previous to his death.

*Fourth class.*—Dues to the United States and to the State of North Carolina.

*Fifth class.*—Judgments of any court of competent jurisdiction within this State, docketed and in force, to the extent to which they are a lien on the property of the deceased at his death.

*Sixth class.*—Wages due to any domestic servant or mechanical or agricultural laborer employed by the deceased, which claim for wages shall not extend to a period of more than one year next preceding the death; or if such servant or laborer was employed for the year current at the decease, then from the time of such employment; for medical services within the twelve months preceding the decease.

*Seventh class.*—All other debts and demands.

### JUDGMENTS FOR WAGES—NO PROPERTY EXEMPT.

SECTION 685.

\* \* \* \* \*

The property, real and personal, specified in the third subdivision of this section, and the homestead of any resident of this State shall not be subject to sale under execution or other process thereon, except such as may be rendered or issued to secure the payment . . . for work done and performed for the claimant of said homestead, . . .

### WAGES PREFERRED—IN INSOLVENCY OF CORPORATIONS.

SECTION 1206. In case of the insolvency of any corporation, the laborers and workmen and all persons doing labor or service of whatever character in the regular employment of such corporation shall have a first and prior lien upon the assets thereof for the amount of wages due to them respectively for all labor, work, and services done, performed, or rendered within two months next preceding the date when proceedings in insolvency shall be actually instituted and begun against such insolvent corporation, which lien shall be prior to all other liens that can or may be acquired upon or against such assets.

### STEVEDORES TO BE LICENSED—BONDS FOR PROTECTION OF WAGES.

SECTION 2050. No person shall engage in the business of loading or unloading vessels upon contract nor shall any person solicit or make any contract for himself or for any other person to load or unload any vessel, either by day's work or by the job, without having previously obtained a license therefor, in the manner provided by law for other license for trades and occupations. . . .

SEC. 2051. Before the sheriff shall issue the said license the applicant shall pay to the sheriff an annual tax of fifty dollars, and shall execute a bond with two or more approved sureties in the sum of two thousand dollars, payable to the State of North Carolina, and conditioned for the faithful performance of his duties and the due and lawful payment of all sums due to laborers assisting in the work of loading or unloading any vessel upon which the applicant may be engaged. And every bond so taken shall be renewed annually, and shall be filed with and preserved by the register of deeds in trust for every person that shall be injured by the breach of his contracts, who may severally bring suit thereon for the damages by each one sustained.

#### EMPLOYEES ON OYSTER BOATS.

SECTION 2408. No person shall be licensed to catch oysters from the public grounds of the State who is owner, lessee, master, captain, mate or foreman, or who owns an interest in or who is an agent for any boat that is used or that may be used in dredging oysters from the public grounds of the State, who is not a *bona fide* resident of this State and who has not continuously resided therein for two years next preceding the date of his application for license, and no nonresident shall be employed as a laborer on any boat licensed to dredge oysters under this subchapter who has an interest in or who receives any profit from the oysters caught by any boat permitted to dredge oysters on the public grounds of the State. Any person, firm, or corporation employing any nonresident laborer forbidden by this section, upon conviction shall be fined not less than fifty dollars nor more than five hundred dollars.

#### LIABILITY OF RAILROAD COMPANIES FOR INJURIES TO EMPLOYEES.

SECTION 2646. Any servant or employee of any railroad company operating in this State who shall suffer injury to his person, or the personal representative of any such servant or employee who shall have suffered death in the course of his services or employment with such company by the negligence, carelessness, or incompetence of any other servant, employee, or agent of the company, or by any defect in the machinery, ways, or appliances of the company, shall be entitled to maintain an action against such company. Any contract or agreement, expressed or implied, made by any employee of such company to waive the benefit of this section shall be null and void.

This law, where it applies, has the effect of making all employees of railroad companies agents and principals of the company so far as fixing its liability for their neglect is concerned. 54 S. E. Rep., 391.

Within the limits set by this statute the defense of assumption of risks is abrogated. 52 S. E. Rep., 129.

It applies to logging roads. 54 S. E. Rep., 795.

#### SUNDAY LABOR.

SECTION 2836. On the Lord's day, commonly called Sunday, no tradesman, artificer, planter, laborer or other person, shall, upon land or water, do or exercise any labor, business, or work of his ordinary calling, works of necessity and charity alone excepted, nor employ himself in hunting, fishing, or fowling, nor use any game, sport, or play, upon pain that every person so offending, being of the age of fourteen years and upwards, shall forfeit and pay one dollar.

**EMPLOYMENT OF CHILDREN.**

**SECTION 3362.** If any mill owner, superintendent, or other person acting in behalf of a factory or manufacturing establishment shall knowingly and willfully employ any child under twelve years of age to work in any factory or manufacturing establishment, except in oyster canning and packing manufactories where said canning and packing manufactories pay for opening or shucking oysters by the gallon or bushel, he shall be guilty of a misdemeanor.

Employment of minors in violation of this section is negligence, which, if followed by injury, gives a cause of action. 53 S. E. Rep., 891.

Illegal employment is negligence per se, and not merely evidence of negligence. The statute is constitutional. 61 S. E. Rep., 525.

**SEC. 3363.** If any mill owner, superintendent, or other person acting in behalf of a factory or manufacturing establishment shall knowingly and willfully require any person under eighteen years of age, except engineers, firemen, machinists, superintendents, overseers, section and yard hands, office men, watchmen, or repairers of breakdowns, to work in such factories or establishments a longer period than sixty-six hours in one week, he shall be guilty of a misdemeanor.

See chapter 463, Laws of 1907, as amended by chapter 85, Laws of 1911, p. 225.

**SEC. 3364.** If any parent or person standing in the relation of parent, upon hiring his children to any factory or manufacturing establishment, shall fail to furnish such establishment a written statement of the age of such child or children being so hired, and if any such parent, or person standing in the relation of parent to such child or children, shall in such written statement misstate the age of such child or children being so employed, he shall be guilty of a misdemeanor, and upon conviction shall be punished at the discretion of the court.

**INTERFERENCE WITH EMPLOYMENT—ENTICING EMPLOYEES.**

**SECTION 3365.** If any person shall entice, persuade, and procure any servant by indenture, or any servant who shall have contracted in writing or orally to serve his employer, to unlawfully leave the service of his master or employer; or if any person shall knowingly and unlawfully harbor and detain, in his own service and from the service of his master, or employer, any servant who shall unlawfully leave the service of such master, or employer, then, in either case, such person and servant shall be guilty of a misdemeanor and fined not exceeding one hundred dollars or imprisoned not exceeding six months.

**SEC. 3374** (as amended by chapter 402, Laws of 1907). If any person shall knowingly hire, employ, harbor, or detain in his own service any servant, employee, or wage hand of any other person, who shall have contracted in writing, or orally, for a fixed period of time to serve his employer, and who shall have left the service of his employer in violation of his contract, he shall be guilty of a misdemeanor, and shall be civilly liable in damages to the party so aggrieved. This section shall apply to the following counties: Beaufort, Edgecombe, Person, Pitt, Washington, Warren, Vance, Pender, Halifax, Guilford, Granville, Hertford, Wayne, Wake, and Caswell.

**PROTECTION OF EMPLOYEES AS VOTERS.**

SECTION 3387. If any person shall discharge from employment . . . any qualified voter of this State because of the vote such voter may or may not have cast in any election, he shall be guilty of a misdemeanor.

**CONTRACTS OF EMPLOYMENT—DEFAUDING MINORS.**

SECTION 3428a. Whenever any person having a contract with any corporation, company, or person for the manufacture or change of any raw material by the piece or pound shall hire and employ any minor to assist in said work upon the faith of and by color of said contract and with intent to cheat and defraud said minor, and shall secure the contract price and shall willfully fail to pay said minor when he shall have performed his part of said contract work, whether done by the day or by the job, the person so offending shall be guilty of a misdemeanor, and upon conviction shall be fined not more than fifty dollars or imprisoned not more than thirty days.

**EMPLOYMENT OF CHILDREN—ENTICING OUT OF STATE.**

SECTION 3630. If any person shall employ and carry beyond the limits of this State any minor, or shall induce any minor to go beyond the limits of this State for the purpose of employment without the consent in writing, duly authenticated, of the parent, guardian, or other person having authority over such minor, he shall be guilty of a misdemeanor, and on conviction thereof shall be fined not less than five hundred and not more than one thousand dollars for each offense. The fact of the employment and going out of the State of a minor, or of the going out of the State by the minor, at the solicitation of the person for the purpose of employment, shall be *prima facie* evidence of knowledge that the person employed or solicited to go beyond the limits of the State is a minor.

**PAYMENT OF WAGES—USE OF NONTRANSFERABLE SCRIP PROHIBITED.**

SECTION 3730. If any person who employs laborers by the day, week, or month shall issue in payment for such labor any ticket or tickets, certificates or other scrip bearing upon their face the word "nontransferable," or shall issue tickets, certificates or scrip in any form that would render them void by transfer from the person to whom issued, or shall refuse to pay to the person holding the same their face value, he shall be guilty of a misdemeanor, and upon conviction thereof shall be fined not less than ten dollars nor more than fifty dollars for each offense, or imprisoned not more than thirty days.

This statute does not authorize the assignee of scrip payable in merchandise to demand and receive payment in money. 112 N. C., 164.

**HIRING OUT CHILDREN, ETC., TO SUPPORT MEN IN IDLENESS.**

SECTION 3740. If any person shall come within any of the following classes he shall be deemed a vagrant, and shall be fined not exceeding fifty dollars or imprisoned not exceeding thirty days.

\* \* \* \* \*

6. All able-bodied men who have no other visible means of support who shall live in idleness upon the wages or earnings of their mother, wife, or minor child or children, except male child or children over eighteen years of age.

## INTOXICATION OF RAILWAY EMPLOYEES.

SECTION 3758 (as amended by chapter 330, Laws of 1907). Any train dispatcher, telegraph operator, engineer, fireman, flagman, brakeman, switchman, conductor, motorman, or other employee of any steam, street, suburban or interurban railway company, who shall be intoxicated while engaged in running or operating, or assisting in running or operating any railway train, shifting engine, street or other electric car, shall be guilty of a misdemeanor, and upon conviction shall be fined or imprisoned, in the discretion of the court.

## MINE REGULATIONS.

SECTION 3797. If any person shall knowingly violate any of the provisions of the law relating to mines or shall do anything whereby the life or health of persons or the security of any mine and machinery is endangered, or if any miner or other person employed in any mine governed by the statutes shall intentionally or willfully neglect or refuse to securely prop the roof of any working place under his control, or neglect or refuse to obey any orders given by the superintendent of a mine in relation to the security of a mine in the part thereof where he is at work and for fifteen feet back of his working place, or if any miner, workman, or other person shall knowingly injure any water-gauge, barometer, air-course or brattice, or shall obstruct or throw open any airways, or shall handle or disturb any part of the machinery of the hoisting engine or signaling apparatus or wire connected therewith, or air pipes or fittings, or open a door of the mine and not have the same closed again, whereby danger is produced either to the mine or those that work therein, or shall enter any part of the mine against caution, or shall disobey any order given in pursuance of law, or shall do any willful act whereby the lives and health of the persons working in the mines [mine] or the security of the mine or the machinery thereof is endangered, or if the person having charge of a mine whenever loss of life occurs by accident connected with the machinery of such mine or by explosion shall neglect or refuse to give notice thereof forthwith by mail or otherwise to the inspector and to the coroner of the county in which such mine is situated, or if any such coroner shall neglect or refuse to hold an inquest upon the body of the person whose death has been thus caused, and return a copy of his findings and a copy of all the testimony to the inspector, he shall be guilty of a misdemeanor, and upon conviction fined not less than fifty dollars or imprisoned in the county jail not more than thirty days, or both.

## PROTECTION OF EMPLOYEES ON STREET RAILWAYS.

SECTION 3800. If any city and street passenger railway company shall refuse or fail to use vestibule fronts, of frontage not less than four feet, on all passenger cars run, manipulated, or transported by them on their lines during the latter half of the month of November and during the months of December, January, February, and March of each year, except in cases of temporary emergency in suitable weather, not to exceed four days in any one month within the period herein prescribed for use of vestibule fronts, such company shall be guilty of a misdemeanor and shall be subject to a fine of not less than ten dollars or more than one hundred dollars for each day: *Provided*, that said companies shall not be required to close the sides of said

vestibules. The North Carolina Corporation Commission is hereby authorized to make exemptions from the provisions of this section in such cases as in their judgment the enforcement of this section is unnecessary.

#### SUNDAY LABOR—RAILROADS.

SECTION 3844. If any railroad company shall permit the loading or unloading of any freight car on Sunday, or shall permit any car, train of cars, or locomotive to be run on Sunday on any railroad, except such as may be run for the purpose of transporting the United States mails, and passengers with their baggage, and ordinary express freight in an express car exclusively, and such as may be run by law, such railroad company shall be guilty of a misdemeanor in each county in which such car, train of cars, or locomotive shall run, or in which any such freight car shall be loaded or unloaded, and upon conviction shall be fined not less than five hundred dollars for each offense: *Provided*, that the word Sunday in this section shall be construed to embrace only that portion of the day between sunrise and sunset; and that trains in transitu, having started on Saturday, may, in order to reach the terminus or shops, run until nine o'clock A. M. on Sunday, but not later, nor for any other purpose than to reach the terminus or shops.

#### BUREAU OF LABOR AND PRINTING.

SECTION 3909. A bureau of labor and printing is hereby created and established, the duties of which bureau shall be exercised and discharged by a commissioner, who shall be designated as Commissioner of Labor and Printing, and by an assistant, who shall be appointed by the commissioner, and who shall be a practical printer. The commissioner shall be elected by the people in the same manner as is provided for the election of the Secretary of State. His term of office shall be four years. The office of the bureau shall be kept in the city of Raleigh and the same shall be provided for as are other public offices of the State.

Sec. 3910. The commissioner, aided by the assistant commissioner, shall collect and collate information and statistics concerning labor and its relation to capital, the hours of labor, the earnings of laborers and their educational, moral, and financial condition, and the best means of promoting their mental and moral and material welfare; shall also collect and collate information and statistics concerning the various mining, milling, and manufacturing industries in this State, their location, capacity, and actual output of manufactured products, the kind and quantity of raw material annually used by them and the capital invested therein; shall also collect and collate information and statistics concerning the location, estimated and actual horse-power and condition of valuable water-powers developed and undeveloped in this State; also concerning farm lands and farming, the kinds, character, and quantity of the annual farm products in this State; also of timber lands and timbers, truck gardening, dairying, and such other information and statistics concerning the agricultural and industrial welfare of the citizens of this State as he may deem to be of interest and benefit to the public, and shall also perform the duties of mine inspector as prescribed in chapter one hundred and three; and shall have the powers and perform the duties in relation to the public printing that are set forth in chapter one hundred and nine. The assistant commissioner shall perform the duties of the commissioner in his absence from office or in case of a vacancy therein.

SEC. 3911. The commissioner shall annually publish a report embodying therein such information and statistics as he may deem expedient and proper, which report shall be printed and paid for by the State just as the reports of other public officers are printed and paid for. The number of copies of said report to be printed to be designated by the commissioner. The distribution of the reports will be paid for from the general fund and not from the appropriation. The commissioner shall send or cause to be sent a copy of the report to every newspaper in this State and a copy to each member of the General Assembly; a copy to each of the several State and county officers; a copy to each labor organization in the State and a copy to any citizen who may apply for the same either in person or by mail, and he may also send a copy to such officers of other States and Territories and to such corporations or individuals in other States and Territories as may apply for the same or as he may think proper. He shall also make a full report to the Governor, as other State officers are required to do, embodying therein such recommendations as he may deem calculated to promote the efficiency of his department.

#### MINE REGULATIONS.

SECTION 4931. No minor under twelve years of age shall be allowed to work in any mine, and in all cases of minors applying for work the agent of such mine shall see that the provisions of this section are not violated; and the inspector may, when doubt exists as to the age of any person found working in any mine, examine under oath such person and his parents, or other witnesses, as to his age.

SEC. 4932. The owner, agent, or operator of every coal mine shall keep a supply of timber constantly on hand, and shall deliver the same to the working place of the miner, and no miner shall be held responsible for accident which may occur in the mine where the provisions of this section have not been complied with by the owner, agent, or operator thereof, resulting directly or indirectly from the failure to deliver such timber.

SEC. 4933. All underground entrances to any place not in actual course of working or extension shall be properly fenced across the whole width of such entrance so as to prevent persons from inadvertently entering the same.

SEC. 4934. No owner or agent of any coal mine worked by shaft shall permit any person to work therein unless there are, to every seam of coal worked in such mine, at least two separate outlets, separated by natural strata of not less than one hundred feet in breadth, by which shafts or outlets distinct means of ingress and egress are always available to the persons employed in the mine; but it is not necessary for the two outlets to belong to the same mine if the persons employed therein have safe, ready, and available means of ingress and egress by not less than two openings. This section shall not apply to opening a new mine while being worked for the purpose of making communications between said two outlets, so long as not more than twenty persons are employed at one time in such mine; neither shall it apply to any mine or part of a mine in which the second outlet has been rendered unavailable by reason of the final robbing of pillars previous to abandonment, as long as not more than twenty persons are employed therein at any one time. The cage or cages and other means of egress shall at all times be available for the persons employed when there is no second

outlet. The escapement shafts shall be fitted with safe and available appliances, which shall always be kept in a safe condition, by which the persons employed in the mine may readily escape in case an accident occurs; and in no case shall an air-shaft with a ventilating furnace at the bottom be construed to be an escapement shaft within the meaning of this section. To all other coal mines, whether slopes or drifts, two such openings or outlets must be provided within twelve months after shipments of coal have commenced from such mine; and in case such outlets are not provided as herein stipulated, it shall not be lawful for the agent or owner of such slope or drift to permit more than ten persons to work therein at any one time.

SEC. 4935. No owner or agent of any mine operated by a shaft or slope shall place in charge of any engine used for lowering into or hoisting out of mines persons employed therein any but experienced, competent, and sober engineers, and no engineer in charge of such engine shall allow any person except such as may be deputed for such purposes by the owner or agent to interfere with it or any part of the machinery, and no person shall interfere or in any way intimidate the engineer in the discharge of his duties, and in no case shall more than two men ride on any cage or car at one time, and no person shall ride upon a loaded cage or car in any shaft or slope.

SEC. 4936. The owner or agent of any coal mine, whether shaft, slope or drift, shall provide and maintain for every such mine an amount of ventilation of not less than one hundred cubic feet per minute per person employed in such mine, which shall be circulated and distributed throughout the mine in such a manner as to dilute, render harmless and expel the poisonous and noxious gases from each and every working place in the mine, and no working place shall be driven more than sixty feet in advance of a break-through or airway, and all break-throughs or airways, except those last made near the working places of the mine, shall be closed up by brattice trap-doors, or otherwise, so that the currents of air in circulation in the mine may spread to the interior of the mine when the persons employed in such mine are at work; and all mines governed by this chapter shall be provided with artificial means of producing ventilation, such as forcing or suction fans, exhaust steam furnaces, or other contrivances of such capacity and power as to produce and maintain an abundant supply of air, and all mines generating fire damp shall be kept free from standing gas.

SEC. 4937. Every working place shall be examined every morning with a safety lamp by a competent person before any of the workmen are allowed to enter the mine. All safety lamps used in examining mines, or for working therein, shall be the property of the operator of the mine, and a competent person shall be appointed, who shall examine every safety lamp before it is taken into the workings for use, and ascertain it to be clean, safe, and securely locked, and safety lamps shall not be used until they have been so examined and found safe and clean and securely locked, unless permission be first given by the mine foreman to have the lamps used unlocked. No one except the duly authorized person shall have in his possession a key or any other contrivance for the purpose of unlocking any safety lamp in any mine where locked lamps are used. No matches or any other apparatus for striking lights shall be taken into any mines, or parts thereof, except under the direction of the mine foreman.

SEC. 4938. The mine foreman shall measure the ventilation at least once a week, at the inlet and outlet, and also at or near the face of all the entries, and the measurement of air so made shall be noted on blanks furnished by the inspector; and on the first day of each month the mine boss of each mine shall sign one of such blanks, properly filled with the said actual measurement, and present the same to the inspector.

SEC. 4939. The owner, agent, or manager of any mine shall give notice to the inspector in the following cases: 1. Where any working is commenced for the purpose of opening a new shaft, slope, or mine to which this chapter applies. 2. When any mine is abandoned, or the working thereof discontinued. 3. When the working of any mine is recommended after an abandonment or discontinuance for a period exceeding three months. 4. When a squeeze or crush, or any other cause or change may seem to affect the safety of persons employed in the mine, or when fire occurs.

SEC. 4940. The owner, agent, or manager of every mine shall, within twenty-four hours next after any accident or explosion, whereby loss of life or personal injury may have been occasioned, send notice, in writing, by mail or otherwise, to the inspector, and shall specify in such notice the character and cause of the accident, and the name or names of the persons killed and injured, with the extent and nature of the injuries sustained. When any personal injury of which notice is required to be sent under this section results in the death of the person injured, notice in writing shall be sent to the inspector within twenty-four hours after such death comes to the knowledge of the owner, agent, or manager; and when loss of life occurs in any mine by explosion, or accident, or results from personal injury so received, the owner, agent, or manager of such mine shall notify the coroner of the county in which such mine is situated, and the coroner shall hold an inquest upon the body of the person whose death has been caused, and inquire carefully into the cause thereof, and return a copy of the finding of the jury and all the testimony to the inspector.

SEC. 4941. The owner, lessee, or agent in charge of any mine, any limestone quarry, or who is engaged in mining or producing any mineral whatsoever in this State, shall, on or before the thirtieth day of November in every year, send to the office of the inspector, upon blanks to be furnished by him, a correct return, specifying with respect to the year ending on the preceding first day of October the quantity of coal, iron ore, fire clay, limestone or other mineral product of such mine or quarry, and the number of persons ordinarily employed in or about such mine or quarry below and above ground, distinguishing the persons and labor below ground and above ground.

SEC. 4942. For any injury to person or property occasioned by any willful violation of this chapter, or any willful failure to comply with its provisions, by any owner, agent, or manager of the mine, a right of action shall accrue to the party injured for any damage he may have sustained thereby; and in any case of loss of life by reason of such willful neglect or failure aforesaid, a right of action shall accrue to the personal representative of the deceased, as in other actions for wrongful death.

SEC. 4943. The Commissioner of Labor and Printing shall perform the duties of mine inspector as provided in this chapter.

SEC. 4944. It shall be the duty of the inspector to examine all the mines in the State as often as possible to see that all the provisions and requirements

of this chapter are strictly observed and carried out; he shall particularly examine the works and machinery belonging to any mine, examine into the state and condition of the mines as to ventilation, circulation, and condition of air, drainage, and general security.

SEC. 4945. For the purpose of making the inspection and examination thus provided for in this chapter, the inspector shall have the right to enter any mine at all reasonable times, by night or by day, but in such manner as shall not unnecessarily obstruct the working of the mine; and the owner or agent of such mine is hereby required to furnish the means necessary for such entry and inspection; the inspection and examination herein provided for shall extend to fire clay, iron ore, and other mines, as well as coal mines.

SEC. 4946. Upon receiving notice of any death resulting from accident, it shall be the duty of the inspector to go himself, or send a representative, at once to the mine in which said death occurred and inquire into the cause of the same, and to make a written report fully setting forth the condition of the part of the mine where such death occurred, and the cause which led to the same; which report shall be filed by the inspector in his office as a matter of record and for future reference.

SEC. 4947. He shall make a record of all examinations of mines, showing the date when examination [was] made, the conditions in which the mines are found, the extent to which the laws relating to mines and mining are observed or violated, the progress made in the improvements and security of life and health sought to be secured by the provisions of this chapter, number of accidents, injuries received or deaths in or about the mines, the number of mines in the State, the number of persons employed in or about each mine, together with all such other facts and information of public interest concerning the condition of mines, development and progress of mining in the State as he may think useful and proper, which record shall be filed in the office of the inspector, and as much thereof as may be of public interest to be included in his annual report.

SEC. 4948. He shall keep in his office and carefully preserve all maps, surveys, and other reports and papers required by law to be filed with him, and so arrange and preserve the same as shall make them a permanent record of ready, convenient, and connected reference.

SEC. 4949. In case of any controversy or disagreement between the inspector and the owner or operator of any mine, or the persons working therein, or in case of conditions or emergencies requiring counsel, the inspector may call on the Governor for such assistance and counsel as may be necessary. Should the inspector find any of the provisions of this chapter violated or not complied with by any owner, lessee, or agent in charge, unless the same is within a reasonable time rectified and the provisions of this chapter fully complied with, he shall institute an action in the name of the State to compel compliance therewith. The inspector shall exercise a sound discretion in the enforcement of this chapter.

SEC. 4950. On application of the inspector, after suit brought as directed in the preceding section, any court of competent jurisdiction may enjoin or restrain the owner or agent from working or operating such mine until it is made to conform to the provisions of this chapter; and such remedy shall

be cumulative, and shall not take the place of or affect any other proceedings against such owner or agent authorized by law for the matter complained of in such action.

SEC. 4951. The inspector shall annually make report to the Governor of all his proceedings, the condition and operation of the different mines of the State, and the number of mines and the number of persons employed in or about such mines, the amount of coal, iron ore, limestone, fire clay, or other mineral mined in this State; and he shall enumerate all accidents in or about the mines, and the manner in which they occurred, and give all such other information as he thinks useful and proper, and make such suggestions as he deems important relative to mines and mining, and any legislation that may be necessary on the subject for the better preservation of the life and health of those engaged in such industry.

SEC. 4952. The provisions of this chapter shall not apply to or affect any mine in which not more than ten men are employed at the same time; but the inspector shall at all times have free ingress to such mines for the purpose of examination and inspection, and shall direct and enforce any regulation in accordance with the provisions of this chapter that he may deem necessary for the safety of the health and lives of the miners employed therein.

#### EMIGRANT AGENTS.

SECTION 5132. Taxes in this subchapter shall be imposed as license tax for the privilege of carrying on the business or doing the act named, . . . The license issued under the subchapter shall be for twelve months, and shall expire on the thirty-first day of May of each year. . . .

SEC. 5180. On every emigrant agent or person engaged in procuring laborers for employment out of this State an annual license tax of one hundred dollars for the State and one hundred dollars for the county for each county in which such agent or person does business, the same to be collected by the sheriff. Any one engaging in this business without first paying said tax shall be guilty of a misdemeanor and fined not less than two hundred dollars or imprisoned, in the discretion of the court.

#### EMPLOYERS TO FURNISH NAMES OF TAXABLE EMPLOYEES.

SECTION 5201. . . . Any corporation, firm, or person who shall, on demand or request made, refuse to give to the tax collector of any county, city, or town a list giving the names of all persons employed by them who are liable for tax shall be guilty of a misdemeanor. . . .

[CHAPTER 112, PUBLIC LAWS 1911.]

#### AN ACT TO PROMOTE THE SAFETY OF EMPLOYEES AND TRAVELERS UPON RAILROADS BY LIMITING THE HOURS OF SERVICE OF EMPLOYEES THEREON.

*The General Assembly of North Carolina do enact:*

SECTION 1. That chapter four hundred and fifty-six of the Public Laws of one thousand nine hundred and seven be and the same is hereby repealed.

SEC. 2. That it shall be unlawful for any common carrier, its officers or agents, subject to this act, to require or permit any employee, subject to this act, to be or remain on duty for a longer period than sixteen consecutive hours,

and whenever any such employee of such common carrier shall have been continuously on duty for sixteen hours he shall be relieved and not required or permitted again to go on duty until he has had at least ten consecutive hours off duty; and no such employee who has been on duty sixteen hours in the aggregate in any twenty-four-hour period shall be required or permitted to continue or again go on duty without having had at least eight consecutive hours off duty: *Provided*, that no operator, train dispatcher, or other employee who by the use of the telegraph or telephone dispatches reports, transmits, receives, or delivers orders pertaining to or affecting train movements shall be required or permitted to be or remain on duty for a longer period than nine hours in any twenty-four-hour period in all towers, offices, places, and stations continuously operated night and day, nor for a longer period than thirteen hours in all towers, offices, places, and stations operated only during the daytime, except in case of emergency, when the employees named in this proviso may be permitted to be and remain on duty for four additional hours in a twenty-four-hour period on not exceeding three days in any week: *Provided further*, the Corporation Commission may, after full hearing in a particular case and for good cause shown, extend the period within which a common carrier shall comply with the provisions of this proviso as to such case.

SEC. 3. That any such common carrier, or any officer or agent thereof, requiring or permitting any employee to go, be, or remain on duty in violation of the second section hereof shall be liable to a penalty of not to exceed five hundred dollars for each and every violation, to be recovered in suit or suits to be brought in the name of the State of North Carolina on relation of the Corporation Commission in the Superior Court of Wake County or of the county in which the violation of this act occurred; and it shall be the duty of the said Corporation Commission to bring such suits upon satisfactory information lodged with it; but no such suit shall be brought after the expiration of one year from the date of such violation; and it shall be the duty of the said Corporation Commission to lodge with the proper solicitors information of any such violations as may come to its knowledge. In all prosecutions under this act the common carrier shall be deemed to have had knowledge of all acts of all its officers and agents: *Provided*, that the provisions of this act shall not apply in any case of casualty or unavoidable accident or the act of God; nor where the delay was the result of a cause not known to the carrier or its officer or agent in charge of such employee at the time said employee left a terminal, and which could not have been foreseen: *Provided further*, that the provisions of this act shall not apply to the crews of wrecking or relief trains: *Provided further*, this act shall not be construed to impose a penalty upon any common carrier for any act done in violation of the act of Congress, ratified March the fourth, one thousand nine hundred and seven, and entitled "An act to promote the safety of employees and travelers upon railroads by limiting the hours of service of employees thereon," or any acts amendatory thereof.

SEC. 4. That it shall be the duty of the Corporation Commission to execute and enforce the provisions of this act, and all powers granted to the Corporation Commission are hereby extended to it in the execution of this act.

SEC. 5. That this act shall be in force from and after its ratification.

Ratified this the 6th day of March, A. D. 1911.

## CHAPTER 463, LAWS OF 1907, AND CHAPTER 85, LAWS OF 1911—EMPLOYMENT OF CHILDREN.

SECTION 1. No child under twelve years of age shall be employed or worked in any factory or manufacturing establishment within this State: *Provided further*, that after one thousand nine hundred and seven no child between the ages of twelve and thirteen years of age shall be employed or work in a factory except in apprenticeship capacity, and only then after having attended school four months in the preceding twelve months.

SEC. 2. Not exceeding sixty hours shall constitute a week's work in all factories and manufacturing establishments of this State. No person under eighteen years of age shall be required to work in such factories or establishments a longer period than sixty hours in one week: *Provided*, that this section shall not apply to engineers, firemen, machinists, superintendents, overseers, section and yard hands, office men, watchmen, or repairers of breakdowns.

SEC. 3. All parents, or persons standing in the relation of parent, upon hiring their children to any factory or manufacturing establishment, shall furnish such establishment a written statement of the age of such child or children being so hired, and certificate as to school attendance; and any parent, or person standing in the relation of parent to such child or children, who shall in such written statement misstate the age of such child or children being so employed, or their school attendance, shall be guilty of a misdemeanor, and upon conviction shall be punished at the discretion of the court. Any mill owner, superintendent, or manufacturing establishment who shall knowingly or willfully violate the provisions of this act shall be guilty of a misdemeanor, and upon conviction shall be punished at the discretion of the court.

SEC. 4. After one thousand nine hundred and seven no boy or girl under fourteen years old shall work in a factory between the hours of eight p. m. and five a. m.

**RULINGS OF THE SUPREME COURT ON EMPLOYERS' LIABILITY.**

A master owes to his servant the duty of using ordinary care to procure sound and safe appliances, if a proper inspection could have remedied the defect and prevented the injury.

*Chasson v. Roper Lumber Company*, 118 N. C., 59.

But when there is a safe and a dangerous method available for the performance of the work in hand, and the servant selects the latter method with actual knowledge of the fact that it is dangerous, he cannot recover.

*Covington v. Furniture Company*, 138 N. C., 374.

Slight defects in appliances causing injuries which cannot be reasonably anticipated do not render the owner of the machinery liable.

*Carter v. Lumber Company*, 126 N. C., 203.

In actionable negligence (as for defective machinery) there must be on the part of the defendant not only an act or omission constituting the proximate cause of the injury, but there must be also a want of ordinary care on his part.

*Carter v. Lumber Company*, *supra*.

In an action by an operative in a cotton mill for personal injuries caused from uncovered cogwheels, the plaintiff cannot recover unless she exercises that care which an ordinarily prudent person would or should have exercised.

*Creech v. Cotton Mills*, 135 N. C., 680.

It is the employer and not the employee who should be fixed with the knowledge of defective appliances and held liable for injuries resulting from their use. It is only where a machine is so grossly or clearly defective that the employee must know of the extra risk, that he can be deemed to have voluntarily and knowingly assumed the risk.

*Simms v. Lindsey*, 122 N. C., 678.

Negligence is a want of ordinary care, a failure to exercise that care which a man of ordinary prudence would have exercised under the circumstances. It is a failure to perform some duty imposed by the law. The law imposes upon the master the duty of using ordinary care to provide for the servant reasonably sound and safe appliances and machinery, and a reasonably safe place and methods to do his work; and on entering into employment the servant has the right to assume that these duties have been performed, and may, without blame, act upon this assumption until some defect becomes so apparent that it may be discovered by the exercise of ordinary care. The master is not required to furnish the best machinery and appliances, nor is he required to provide the safest place or methods, but such as are reasonably safe. The law also requires the servant to exercise ordinary care for his own safety. It is also a part of the contract of employment that the servant assumes the ordinary risk of his employment and also the risk incident to dangerous work or dangerous methods of work, if they are obvious.

*Jones v. Warehouse Company*, 137 N. C., 337.

When an employee undertakes to do something which it is not his duty to do, he thereby assumes the risk, and cannot recover damages.

*Hamrick v. Balfour Quarry Company*, 132 N. C., 282.
